## CMWC NEWS

The Cascadel Mutual Water Company is reminding you to turn the water off to your home and drain your house of water when you leave for more than a couple of days in the case of freezing temperatures to prevent lines from breaking inside your home.

## ROADS by ED ROSE

So far weather from a driving perspective has been generally favorable. We know it will change and present difficulties for mountain driving. Please ensure your vehicle is prepared and serviced for winter conditions and maintain situational awareness to prevent any mishaps.

A Happy and safe Holiday to you.

## DID YOU KNOW???

Sure, we've all heard the Steller's Jay's screeches, the Acorn Woodpecker's laugh, and the California Quail's *Chi-ca-go* call. But, what about all the other birds we hear chirping, whistling, and singing in our forest?

Thanks to the Cornell Lab of Ornithology bird ID app on my phone, I'm learning about the diversity up here. Did you know we have Red-shouldered Hawks, Western Tanagers, Northern Flickers, Evening Grosbeaks, Saw-whet Owls, and Cedar Waxwings, to name a few?

What birds have you seen or heard in Cascadel? Let me know. And if you'd like my full list of 27 identified birds—and counting—please email me. Now, if I could just get one to slow down for a photograph...

You can check out all these birds and more at the Cornell Lab for yourself at: <https://www.birds.cornell.edu/home>

## FIREWISE

Thanks to each one of you who has donated so generously to the Firewise Brigade. We are bringing in the Mt Bullion Crews to illuminate the log deck near the clubhouse and burn the piles that have been created on the CSA areas. This crew will make short work of all the hazard fuels for us.

We have been re-certified as a Firewise USA community. The new certificate may be found on our website at: <http://cascadelinternet.com/water/national-fire-protection-association-certified-firewise-community-since-2010/>. You will also find the new form to record your hours for fuel clearance on your property at the same link. Again, we thank you for all the fuel clearance you do on your properties.

Firebox #6 has been installed on Cascadel Dr. North near Cascadel Lane. This firebox was donated by Ed and Judy Rose. The metal frame was built by Simon Elman, and the box was built by Rob Shevlowitz. Their time was also a donation. Thanks to all that made this happen for our community.

## EVENTS AND MEETINGS
