FIREWISE

On Saturday, April 10, we held a clean up around the clubhouse.

On behalf of the Coarsegold RCD, Kai Hansen offered to help us remove some trees that were up next to the clubhouse in order to satisfy the zero to five foot clearance for fire safety.

Nick Stockton and Simon Elman also helped to limb up

and remove trees against the clubhouse.

The sawyers also removed the broken trees which posed some danger to

visitors walking through the memorial garden area next to the clubhouse.

We had more volunteers who created piles from the cuttings for the skid steer to take to the burn pile area.

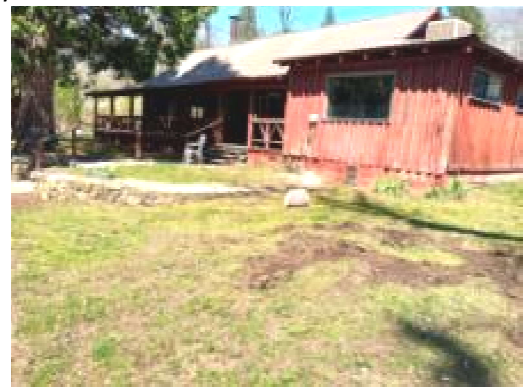

Other volunteers were Karen Jordan, Loraine Vance, Ellie Heffner, Jeff Bryson, Carol Eggink, and Stan Eggink on the skid steer. The work day was a huge success.

The removal of these trees around the clubhouse makes the building a lot safer in the event of a fire in the area. Pizza was served to those who remained during the lunch hour.

[Thank You](#) to all who participated in the community work day.

I will be using this community work day as our Wildfire Preparedness Day activity.

COMMUNITY BURN PILE

We had several burn days at the Community Burn Area this month. Sandy Chaille from Cascadel Heights came down to help me with one burn. That made the day's work so much easier.

Thanks so much Sandy.

While we were burning, Bobby Cram and his girlfriend Melissa were fishing from the creek. They caught two very nice sized Trout.

There is always something fun to do here in The Woods.

ROADS

With the winter weather behind us we were able to schedule road repairs. Sage Engineering made repairs on Cascadel Road and laid down fresh gravel. They also filled pot holes on the asphalt roads. In the month of April we spent \$9,400 for road repairs.

SNOW DAY

April 2, 2025.
