FIRE BRIGADE WORK DAY MINUTES

August 17, 2019

Meeting began at the clubhouse at 8 AM.

Members present: Carol Eggink, Simon Elman, Susie Odry and Carol Bryson-Pace.

We discussed having a chipping day on September 21, 2019. This date may not work. We need to see what community events are happening on this date. Simon may need to be away. Carol and Simon will check on this to solidify the date for community chipping.

Simon and Carol Bryson-Pace inventoried the fire boxes. Simon is correcting the inventory sheets inside the boxes to read what is currently in the boxes. A bug bomb was set off in one box to kill the wasps. A broken lock on the Vista box was replaced. Simon gave a copy of the new inventory sheets to Carol E. for the records.

Carol E. and Susie Odry weedeated around fire hydrants along Cascadel South, Cascadel North, Cascadel Drive and Vista. Some easement clearing was done at the same time in two areas.

Thanks to Carol Bryson-Pace for the refreshments she provided after the work day was done. Everyone had a chance to refuel and rest with good company.

Earlier this week, Carol E. and Stan E. assisted Susie Odry in removing slash from her driveway and from the adjoining neighbor's yard. This slash was moved to the Eggink yard for chipping at a later date.
