

CASCADEL FIREWISE COMMITTEE/ BRIGADE

COMMITTEE OF THE CASCADEL MUTUAL WATER COMPANY

WORK DAY MINUTES

May 12, 2018

9:30 AM

Members present: Carol and Stan Eggink, Simon Elman, Ed Rose, Brian Curtis, Susie Odry and Pennie Barger

Simon Elman had created a large slash pile from a broken Oak tree located at the top of the Water Co, lot located in the ravine on Cascadel Drive. He and a neighbor pulled the debris down into the ravine for chipping.

Stan and Carol collected 11 smaller debris piles from around the subdivision on Friday May 11.

At 9:30 AM on Saturday, May 12, Stan and Carol began setting up equipment for the chipping event. Stan and Ed used the skid steer to collect smaller logs from the back of the ravine and added these to the chipping pile. The rest of the crew chipped and Carol did a bit of weed whacking to further clear the area for fire preparedness.

The crew finished up around noon and were fed lunch donated by Judy and Ed Rose at their residence.

Below I have included a few pics of the event, before and after.

BEFORE

AFTER

- Carol will be cutting back easements from the archway to the clubhouse in preparation of the BBQ. Suzann Ingham and her brother Dave will be assisting on Friday May 18.
- Simon and Carol will be touching up the clubhouse grounds.
- Stan and Carol will be cutting back the grasses across from the clubhouse to ensure safe parking for any vehicles during the BBQ.
- Stan has filled some of the ruts in the clubhouse parking lot to make car access easier
